

Varied Fluency

Step 4: Four Operations

National Curriculum Objectives:

Mathematics Year 4: (4M9) [Estimate, compare and calculate different measures, including money in pounds and pence](#)

Mathematics Year 4: (4F10b) [Solve simple measure and money problems involving fractions and decimals to two decimal places](#)

Differentiation:

Developing Questions to support solving money problems using four operations (whole numbers and pounds and pence).

Expected Questions to support solving money problems using four operations (using decimals).

Greater Depth Questions to support solving problems using four operations (using decimals and a mixture of pounds and pence and some conversions required).
